COAST GUARD FOUNDATION 2022
GUARDIAN AWARD

JAMES O’HARE
COAST GUARD FOUNDATION DIRECTOR

James O’Hare has been an avid boater for more than 60 years and has always been impressed by the young Coast Guard women and men he has met on the water and in the community. This appreciation led Jim to begin donating to the Coast Guard Foundation and eventually join our board in 2002.

Jim is one of four board members who started the D.C. event 18 years ago. Since then it has raised more than $14 million for Foundation programs that assist Coast Guard members and families.

As a dedicated volunteer, Jim has promoted the Coast Guard and the Foundation with boaters from Maine to Florida and beyond, enhancing the readiness and morale of Coast Guard members, bringing new partners to the Foundation’s mission, and recruiting dedicated board members to guide the organization.

Jim works closely with the Coast Guard Foundation staff in networking and major gift fundraising, and was instrumental in the Foundation establishing a major gift program in the Mid-Atlantic States. He has brought many significant contributors to our organization over the years including several current board members. Jim also donates Foundation-branded apparel that assists fundraisers and volunteers in cultivating donor and corporate partners.

The Guardian Award is one of the Coast Guard Foundation’s premier honor and recognition awards. It is a national award presented once each year at one of the Foundation’s high profile events to a recipient selected from a field of candidates drawn from across the country. The award recognizes individuals, companies or organizations who have provided significant support, or have demonstrated exemplary commitment to the Coast Guard Foundation, U.S. Coast Guard personnel and families, or to other service members of the U.S. Armed Forces and their families. Further, the Foundation considers individuals, companies or organizations that have demonstrated significant support to educational and charitable endeavors that promote awareness of maritime affairs, the marine environment and its protection, maritime history, maritime commerce, and other related activities to develop maritime expertise or inspire future generations of maritime service.

The Guardian Award celebrates those who support the men and women of the Coast Guard while Coast Guardsmen the world over protect our Nation, our citizens, and our national interests.
IN MEMORIAM

NORMAN MINETA

1931–2022

“It gave me a great deal of pride to be the Secretary of the Coast Guard. I still cherish those memories of working with the uniformed service members and civilians because all of you are so dedicated to your job and this country. You carry out this mission with passion and I appreciate what you all do on a daily basis.”

Secretary Mineta oversaw the Coast Guard during his tenure as Secretary of the United States Department of Transportation from 2001 to 2006, prior to the establishment of the Department of Homeland Security.

Coast Guard Air Station Atlantic City is made up of 271 members including 62 pilots, six civilian personnel, and 198 enlisted members. The air station’s 12 MH-65D Dolphin helicopters support a wide range of Coast Guard operations, such as search and rescue (SAR), law enforcement, port security, and marine environmental protection along the coast from Connecticut to Virginia.

In 2021 air station crews conducted over 204 search and rescue cases and 148 security missions. In May of this year air station crew members rescued two people after the sailing vessel Free Bird overturned near Little Egg Inlet, New Jersey. When the air crew arrived on the scene, they located the Free Bird on its side in breaking surf with both people aboard. With high winds, driving rain and thunderstorms in the area, the aircrew quickly lowered the rescue swimmer. Once the survivors were safely hoisted into the helicopter, they returned to the air station and were transferred to awaiting emergency medical personnel.

Air Station Atlantic City also protects our Nation’s Capital from the National Capital Region Air Defense Facility. Under the operational control of NORAD, crews conducted 26 air defense missions last year including 36 scramble launches, 59 runway alerts, and nine intercepts of airspace violators. Additionally, Atlantic City crews deploy throughout the United States to enforce airspace restrictions for Presidential Protection and National Special Security Events.
